CAPT. STEVENS

Always Ready to Proclaim the Truth, Mgs. GEO DAWLEY, of 76 Knight street, Provi dence, R. I., relates to our reporter her experience with the wonderful curative properties of what is destined soon to be the standard and leading specific of the whole wide world for kidney and liver dis-

eases, etc. Mrs. D. says :

MISCELLANEOUS.

"Early last spring I was severely affi cted with torpidity of the kidneys and enlargement of the liver, and the kidney disease came upon me so fast and suddenly that before I was scarcely aware of the use of my trouble I became badly bloated, and my body and limbs very much swollen, so that it was with great difficulty and severe pain that I was able to walk any. I became dreadfully troubled by being short-breathed, so that even a slight exertion or a little exercise would ti e me almost to exhausnight than at any other time, and would frequently ache so sharply as to arouse me from asleep. I was very nervous and uncomfortable all the time, and was being doctored, and taking all kinds of medicine for this complaint and that and the other, but all to no good purpose, until about the time when I was tired out and somewhat disgusted and almost discouraged with medicines and doctors, a relative and highly esteemed friend persuaded me to try Hunt's am happily disappointed by the result, for before I had used a bottle of it I began to feel relieved, and soon commenced to sleep splendidly; the severe nervous pains in my limb which I had to handle so tenderly do not appear any more, my headache and backache have disappeared, I feel better every way, and rest well all night. The swelling has disappeared from my body and limbs; I am now able to do my housework comfortably and easily. Hunt's Remedy has certainly done wonders for me."

# TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause -liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

> Itisafact! Brown's Iron BITTERS, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old drug-gists and in every particular reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health resulting from intemperance, do more to promote temperance, in the strictest sense than any other means now known.

It is a well authenticated fact that many medicines, especially 'bitters,' are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with Brown's IRON BITTERS. Itisamedicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price \$1.00.

ISPECIAL DISPATCHES TO THE RECORD-UNION.]

CALIFORNIA.

STOCKTON, March 31st.—This morning Charles Rury, aged 20, shot and seriously wounded Dave Lawrence, aged 17. The lat-ter was shot in the breast. The weapon used eared that Lawrence will die. Rury is in Modesto, March 31st.—About 4 o'clock this afternoon F. L. Wood, a school teacher, that and instantly killed Oscar Howell on

Front street in a saloon over a game of cards, Howell came here about two weeks ago with a band of his father's sheep from Red Bluff. Wood has been teaching school at Waterford.

VALLEJO, March 31st .- A force of some ten or fifteen men has been at work at the Monadnock yard for the past two weeks, get-ting everything in readiness to resume operations upon the ironclad. Five years of idle-ness has given the machinery, boilers, wharf and buildings time to go to the bad to no little extent. Flowever, everything is being put into good order once mere. Steam was got up yesterday, and on Monday an additional force of mechanics will be taken on. which will be largely increased before the end of the week. The resumption of this work

ccurs very opportunely for the working A Blaze in Grass Valley.

GRASS VALLEY, March 31st .- A fire broke out this morning in the photograph gallery of J. Quirk, in Dr. Harris' two-story building, on Mill street. The building was totally de-stroyed. Dr. Harris, whose dental office was on the second floor, lost all his instruments, nechanical apparatus, stock and medical library. J. Quirk lost all his photographic stock and instruments. B. Gad's stock of clothing, in the next building, was badly damaged by water. J. M. Manning's stock of drugs, on the second floor, was nearly all aved by the firemen and by outsiders, though his loss is considerable. The hardware store of S. Fisher and the jewelry store of J.

Los Angeles, March 31st.—The Fort-street M. E. Church was crowded this evening by a fine audience to welcome Miss Frances B. Willard, President of the Women's National Christian Temperance Union, and the Secretary, Miss Anna Gordon. The opening address was made by the Mayor, and was followed by others on behalf of the Grand Lodge of I. O. G. T. Miss Willard was presented with a check for \$150 for traveling expenses. In her response Miss Willard spoke in a temperate, graceful and elequent manner. She will remain in this section a week or ten days and then go north.

The Tehama County Tax Case. RED BLUFF, April 1st.—Creed Haymond is here to represent the Central Pacific Railroad Company before the Supervisors to-morrow, who have ordered an amicable suit instituted to settle the question of back taxes.

The question has greated much discussion with long. The question has created much discussion among the taxpayers of the county, and it is expected that an interesting discussion of the question will take place to-morrow. District Attorney Lewis refused to prosecute the suit, and lawyer Ellerson has been employed by the Board to do so.

Pigeon-Shooting Match. SAN FRANCISCO, April 1st.—The pigeon match between Crittenden Robinson and J. Lambert for \$1,000 was won by the latter with a score of 37 to 35. The conditions of the match were fifty birds each for \$500 a side, Hurlingame rules. The result of the match was a great surprise.

NEW MEXICO.

The Troops and the Apaches SANTA FE, Morch 31st .- The Shakespears Guards, under Captain Black, are doing good service. As soon as the Indians made their appearance on the lower Gila, Black moved to Stein's pass, above the caryon route usually taken by Indians returning to Mexico. This, together with the fact that the regulars were moving out on the railroad, caused the Indians to cross the plains into the Burro mountains. Black procured fresh horses and followed so closely that the save ages were compelled to abandon their horses and plunder and take to the mountains, south of the pass road, on foot. When last heard from Black was in hot pursuit. It will be difficult for mounted troops to follow them by the Supervisors.

Carroll, an old pioneer of this Territory, and a resident of the Gila valley, was surrounded by a band of Indians about four miles north of the Carlisle mine just before dark last night. By aband the before has managed to escape into the last night. By aband the last night is to be a discovered in John S. Gray's accounts, making his total defalcation as far a large of the last night. doning his horse he managed to escape into the rocks and made his way to Richmond on foot, a distance of twelve miles. Four pack animals, with full packs of Indian goods, came into Shakespeare last night. Three of the horses were branded "J. W. F.," and are supposed to have strayed from the Indians passing east of this place.

The Trustees of the Veterans' Home have awarded the contract for the erection of the institution, and direct that work shall be commenced immediately.

A Reign of Terror in Ogden. OGDEN, March 31st.—This city is so full of ambiers and roughs from the north and west hat it is dangerous for the citizens to go unarmed upon the streets after dark, the police being powerless to protect the law-abiding people or arrest offenders. One of a late series of affrays occurred at midnight last ight on Fourth street, near Franklin, in the business part of the city, in which a man named William Henry was severely cut, the wounds being pronounced fatal. All the parties sugaged were drunk, and no positive statement of the details can be gleaned. Henry states to-day that he with others, who had just arrived from San Francisco, was coming up the street, when a stranger accosted him and asked him for a quarter, which he refused, on the ground of not having any money. The man then cursed him and began stabbing him, the most serious and probably fatal gash being across the abdomen, just above the pelvic bone, about three inches Ald for Orphans.

PETALUMA, March 31st.—About \$150 was realized by the literary and musical entertainment given here last evening in aid of the Orphans' Home at Vallejo.

Work at Marc Island.

VALLEJO, March 31st.—A force of some with the affair, but Henry has been unable to identify his assailant, who is generally supposed to be a rough called "frisco Jack," who skioped out and has not been seen since the difficulty. Another man named James McEnery was about the same time knocked down with a rock or sandbag and stunned so badly as not to know who his assailant was.

Presbyterians in Council-A Wife "Gets Even" with Her Husband. SALT LAKE, March Slst .- The Utah Pres ytery, comprising the ministers of that de-omination for Utah and parts of Idaho, Wyoming and Nevada, is in session in this city. The Presbyterian Teachers' Convention, embracing the same field and the same persons, with the addition of the wives of the ministers and the single lady eachers, has just closed its session, reporting good progress and a large amount of educa-tional work done. They have schools in nearly every settlement of prominence in Utah.

DOMESTIC NEWS.

Elopement of Mrs. Langtry's Sister, NEW YORK, March 31st .- A Sun Phila New York, March 31st.—A Sun Philadelphia special says: In the latest news from the Langtry combination, the central figures are Mrs. Langtry and Miss Agnes Langtry, chaperons and eister-in-law to the actress, who was called to this country by the Lily to be her traveling companion after Mrs. Labouchere's departure. Miss Agnes is said to be a sister of Mr. Lugtry, and has hitherto enjoyed the intimate friendship of his wife. She is little more than a few years her senior, moderately good-looking, and very sedate and dignified in her manner. Since joining the moderately good-looking, and very sedate and dignified in her manner. Since joining the company, several months ago, she has been the almost constant associate of Mrs. Langtry and Gebhardt in their walks and drives. The Times has a dispatch from Rochester, N. Y., saying that on March 18th the company were on their way into Canada and stopped at Niagara Falls for one day. With the party was a young man from Toronto who had been introduced to Miss Agnes a few days before, and whose attentions to her, it is said, were almost as marked as were those of said, were almost as marked as were those of as few steps as possible.

in some quarters for having recently, in a a new party. He objects chiefly to the Republican party because so much of Democracy because its day of usefulness has passed; a party of the outs, willing to profess anything or to abandon anything to get in, and not a party of the people nor of equal rights-a party that does not know what its principles are. There have been numerous replies made to the demand, inasmuch as Mr. George's utterances are awakening attention, and are not to be coolly ignored; but the most satisfactory answer that has yet appeared, and one that is conclusive, comes from the pen of George William Curtis, in the statement that the principles of a party are not to be judged on such a basis as Mr. George lays down. If it is true that moneyed power attaches itself to the Republican party, it is because of the conservative character of money, which always allies itself with strong government de facto. Thirty years ago the Democratic party had this moneyed backing; the wealth of the country stood behind it; gave oracular power to its voice and was its sustenance. The Republican party was then unknown; it came on later a puling infant, and having done more than any other party in history to secure equality of rights, it attained strength, as the Democracy, for resisting it, suffered decline. The lecturer declares that a new party to be born must be based upon the Declaration of Independence, and to him the journalist replies that the principles of that document have always been the working charts of the Republican party, and save in its claim for a modified tariff, the Democratic party has never been the friend of the principles of freedom of press, of person, or speech or conscience or

# THE SPECIAL TAX DECISION.

The decision of the Supreme Court in one series of city tax cases is precisely in the line on which this journal has uniformly expressed itself—that the special Acts authorizing special taxes for municipal departments were constitutional, and amounted to increased or amplified authority given, and were to be considered as adtional to, and separate from, the charter provisions for a rate not exceeding one per ent, for the General Fund. The decision has been published in full in the RECORD-Union, and in its very brevity is found the simplicity of the question submitted and of which we never had any doubt. We read the law as it was, and in the light of ordinary reason and common sense there was but one construction to be placed upon it. For its opinion, it has been a pleasure evidently, in certain quarters, to impugn the motives of this journal, but it has, notwithstanding, adhered to its belief, and has nothing whatever in The Coming Dramatic Event at Cincin this connection with which to reproach itself, while it regrets that a course of costly litigation ever was deemed best by which affected more or less injuriously ma-

DOMESTIC NEWS.

The United States Treasury. WASHINGTON, April 1st .- The committee appointed to examine the cash in the United States Treasury and the accounts of the late Treasurer, began the work after the close of business Saturday by making a count of the teller cash, so that there need be no interference with the business of the office. The revenue vault was also sealed up, preparatory to taking an inventory of its contents issti-tuted by Gilfillan. It is thought that the count will occupy two or three weeks. There examination being the one made durin Treasurer Spinner's time. When Mr. Spin er turned over the office to Treasurer New the latter was willing to accept the cash and accounts without examination, and his bondsmen being willing the Secretary of the Treasury dispensed with the examination. The new Treasurer has expressed his willingness to forego the examination he present occasion, but the Secretary thinks that so long a time has intervened since the ast count that one should now be made. The orce of twenty to thirty clerks detailed from offices other than the Treasurer's office. The ount will be made of the old notes in the redemption division, the new notes in the re-serve vault, and the silver and gold bonds held in trust. President Upton, of the com-mittee, has decided that an actual count must be made. In all cases packages of notes will be opened and counted, as will also bags of gold and silver coin. He will personally asame charge of the work of comparing the cash on hand with the Treasurer's accounts, and with the accounts of the disbursing offi-

CHICAGO, April 1st.—In reply to inquiries addressed to the Commissioners of Agriculture and Secretaries of State Agricultural Boards in various States concerning the crops, a number of responses have been received.
The Secretary of the State Board of Agriculture of Ohio estimates the wheat crop at 70 per cent., or under, compared with the prospect at the same time last year. The ortage is due to last fall's rains and winter The Secretary of the Illinois Department of Agriculture says the crop has been injured in some localities by freezing, dry weather and the fly. The Commissioner of Agriculture of Kentucky says a full breadth of winter wheat was sown. Some damage has been done by the fly. The present outlook is unfavorable, and the prospect is 20 per cent. below last year's crop, which was 20 per cent, the largest ever grown in the

Another Exciting Scene at the Diamon

BRAIDWOOD (III.), April 1st.-The Dia mond mine was a scene of excitement to-day. The fact that the bodies discovered were to be brought out to-day drew a large crowd, and when about 3 o'clock the news was brought up that the party who had gone down after the bodies had been imprisoned in the roadway while putting the bodies in the offins, the excitement on top was intense The wives and relatives of the men in the mine were wild with grief over the prospec-tive death of their friends. A party was at once sent out to search for them. When the second party nearly reached the point where the bodies were discovered, they found that a the bodies were discovered, they found that a large pile of stone had caved in and blocked the narrow passageway. They were dug out and liberated. One of the men is in a prostrated condition. It is thought no furthe search will be made, as no man can be found who is willing to go down. Six bodies were taken out about 4 o'clock and placed in the Morgue, where the crowd passed through and

Many of the hair-dressings of the day are excellent, but the great mass of the stuffs sold for promoting the growth and bringing back the original color are mere humbugs, while not a few are positively pernicious in their effects upon the scalp and the structure of the hair. All hair-dyes are well-known to Chemists as more or less poisonous, because the change in color is artificial, and does not depend upon a restoration of the functions of the scalp to their natural health and vigor. The falling out of the hair, the accumulations of dandruff and the premature change in color are all evidences of a diseased condition of the scalp and the glands which nourish the hair. To arrest these causes the article used must possess medical as well as chemical

of Carboline. It was in far-oir Russia that the effects of petroleum upon the hair were first observed, a Government officer having noticed that a partially bald-headed servant of his, when trimming the lamps, had a habit of wiping his oil-bestmeared hands in his scanty locks, and the result was, in a few months, a much finer head of black, glossy hair than he ever had before. The oil was tried on horses and cattle that had lost their hair from the cattle plague, and the results were as rapid A BRASS BAND will be in attendance Tuesday as they were marvelous. The manes and tails of horses, which had fallen out, were completely restored in a few weeks. # LOCAL INTELLIGENCE.

MILITARY ELECTION AT WOODLAND .- Company F, of the First Artillery Regiment, held an election for Captain and First Lieutenant Saturday evening, to fill vacancies caused by expiration of term of service of Captain Casler and Lieutenant Myrick. Major P. J. Harney, chief of General Carey's staff, was present as inspector of election, as was also the Colonel of the regiment. The result was the choosing of First Sergeant W.
F. Spencer to the Captaincy, vice Casler removed from the county, and the re-election of Lieutenant G. W. Myrick. There was a large attendance of the members, and the result of the election gave general satisfaction. The new Captain is every inch a soldier, and Company F, which is one of the finest in the regiment, will not be allowed to retrograde while Captain Spencer is at its head. The company is in fine condition, has its own armory, and, is is expected, will appear in this city on Decoration Day. The members are already looking forward toward the annual encampment, from which they expect much good in a military point of view, as well as social enjoyment. The officers who went over from Sacramento were hospitably enter-tained and returned yesterday. The town of Woodland is a very prosperous one, surrounded, as it is, by fine farming lands; its people are intelligent, and everybody seems to be delighted at the fine prospect for a bountiful harvest of fruit and grain, the late rains insuring the garnering of a fine crop. INTERNAL REVENUE .- The following copy

of a letter received at the Internal Revenue Office in this city needs no explanation: 23, 1883. A. L. Frost, Collector District, Sacramento, Cal.—Sir: Your letter of the 14th instant is received, in which you ask, 'Is an authorized retail liquor dealer who purchases a package of spirits at a given proof, properly marked, stamped and branded, who withdraws less than five gallons therefrom and adds water to reduce the proof of the spirits remaining in the package, liable as a wholesale liquor dealer, and is said package liable to seizure because the spirits so reduced do not conform to original marks, brands, etc., on the package? He is not subject to special tax as a wholesale liquor raler unless he sells liquor in quantities of rive gallons or more at the same time, but the package in question is liable to seizure, under Section 3289 Revised Statutes. Respectfully, Green B. Raum, Commissioner."

FORESTERS' SHOOT .- The Forester Gun Club held a shoot yesterday at Agricultural Park for the club medals. In the first

funeral of the late Charles A. Waring took place yesterday afternoon from his late resilence on Fifteenth and K streets. A large procession of relatives and friends, headed by the First Artillery band, followed the re-mains to the City Cemetery. The members of the Sacramento Bar attended in a body. At a meeting of the Bar on Saturday, W. R. Cantwell, Add. C. Hinkson and L. S. Taylor were appointed a committee to draft resolu-tions in memory of the deceased. There will be a meeting of the Barthis morning at 10

PERPETUAL CALENDAR.-A perpetual calendar has been received from A. L. Bancroft & Co., which is quite a novelty in itself and very convenient in many respects. EDS. RECORD-UNION: Never since the culture, recently appointed by Governor settlement of Lassen were the prospects of Stoneman, will meet in this city on next the farmers of this county more gloomy Thursday for the purpose of organizing. Since than they were a week ago to-day. With a winter just passed, unprecedented for its absence of snow or rain, spring came upon us with hot, balmy days, the ground frozen, and comparatively little of the plowing or seeding done. As soon as posball, of Alameda county, has been appointed.

Mr. Kimball was asked to be appointed by the estire legislative delegation of Alameda and by a large number of prominent residents of that county. He is a practical orchardist, and resides near Hayward.

W. N. Gladden declined to be a member from District No. 1, and William McPherson Hill was appointed. He is a wealthy farmer and fruit-grower, and resides near Sonoma, Sonoma county.

Instead of A. T. Hatch, of Solano, for District No. 2, William M. Boggs, of Napa county, has been appointed. Mr. Boggs is a pioneer of California, having reached this State in 1846. He is a son of ex-Governor Boggs of Missouri. He resides near Napa City, where he has a fine orchard and vineyard. The remainder of the Board is as provingly apprendent of the many acres of black plowed fields will testify. For a time hopes of a portion at least of the "Wiggins" prophecy being fulfilled no doubt animated some and promised hope. That "fizzle" having passed with the dropping of perhaps a quart of water on the entire county, the next recourse was abuse or supplication to the "clerk of the weather," who stood both quite well until last Monday, when he "let all holts go" and came down with the rain in showers and sible the farmers went to work with a will, The remainder of the Board is as came down with the rain in showers and came down with the rain in showers and torrents, with but few hours of cessation up to the present writing, and how long it will be continued "no feller can find out." The rain, so far, has been a warm one, a little snow having fallen—just enough to whiten the tops of the higher hills. The long-continued warm weather caused the grass to start, and now the hills and fields present a picture of living green, while the apricot and many of the peach trees are in bloom—a month at least ahead of former years. With the rain still pouring down, the assurance of good crops of grain, at 3, was formerly a practical surgeon, but now devotes his entire time to his model fruit long-continued warm weather caused the

Wherever known the fruit of this county has gained an enviable reputation for its size, perfection and fine flavor-especially the apples. Ever since the first apple was grown here until last year the fruit has been entirely exempt from the many pests that injure it in other sections. But last year there came a change in the shape of the codling moth, which in some orchards injured almost every apple. It now be-comes apparent that the orchardists of this ction, in order to retain their well-estabished reputation, have got to wage an intelligent and persistent warfare against all pests of the orchard, and hopes are enter-tained that the Horticultural Commission, ormed by a law of the last Legislature, will do its duty and see that its provisions are

SACRAMENTO, August 20, 1882.

To Whom It May Concern: I have used J. P. Sarsfield's Chronic Uncer Salve in my family for several years, and take pleasure in testifying of my own knowledge to its healing qualities. One of my sons, after a spell of scarletina, was left with a running sore just over the ball of the eye. We were greatly worried for fear it would injure the eye, and we used many remedies for its cure for over a year. We fortunately got a small box of the Chronic Ulcer Salve, and after applying it for about one week the sore was entirely healed and has never troubled him since. I regard the salve as invaluable to the housesince. I regard the salve as invaluable to the hold. Respectfully yours, L. A. UPSC

Within the past two weeks, says the Wooster (O.) Democrat, dangerous counterfeit silver dollars have been in circulation. They have defied detection at the banks, and are taken in and paid out as if they were genuine. They are compounded of zinc and glass and heavily plated with silver. The die, with the exception of an "m" on the base of the neck of the Goddess of Liberty, is perfect. It is the most dangerous counterfeit yet made, and business men should carefully examine their silver dellars.

Mr. J. P. Sarsfield—Dear Sir: It affords me unfeigned pleasure to testify to the great efficacy of your medicine and ulcer salve. For fifteen years I suffered with a scrolulous ulcer on my left leg. It was sore from the insiep to the knee joint, attended with great pain. Six inches of the shin bone was removed twelve years ago. The ulcer and sore continued, and I was unable to use my leg, and was helpless. I was treated by many eminent physicians, but received only temperary relief. My suffering for fitteen years was more than pen can describe. I for fitteen years was more than pen can describe. I for seven months I find myself perfectly cured, and I am well and strong, able to do any kind of manual labor, though a terrible scar is left on my leg as a reminder of my long suffering. I shall never cease to recommend your Chronic Ulcer Salve for all chronic ulcers, as I had given up all hope of ever being cured until I applied your ulcer salve, Your being cured until I applied your ulcer salve. Mehan, the well-known Philadelphia horticulturist, now says that in the New Jersey marshes there are many trees of European appecies which, though failing to color their leaves at their home, manage to put on the most brilliant hues here.

STEEL BARBED WIRE.

GALVANIZED OR PAINTED, IS FEET TO THE POUND.

Merits of Barbed Fence:

It is the cheapest fence made; the most durable; it is not affected by fire, wind or flood; does not cause snow-drifts; takes fewer fence posts; stock cannot push it down; it protects itself—acts on the defensive; it takes but little room; you can cultivate close to it; weeds are easily kept from it; requires but little labor to put it up; you can draw enough at one load to fence a farm; you can fence a good-sized farm in a day; it is the greatest practical invention of the age; and has come to be the farm and railroad fence of the country.

We advise every one who wishes to purchase wire, and wants the best, to buy the CACTUS BARB, as it contains all the favorable fe tures that are required, and none of the objectionable ones. It is made only from the best annealed steel, fully warranted, either galvanized or painted; put up in spools of from 100 to 120 pounds each. Remember, it will not exceed 17 ounces per rod.

MEDICAL

Kansas Cirv, Mo., Sept. 20, 1882.

I think it a duty I owe to humanity to say what your remety has done for me. One year ago I contracted a bad case of blood disease, and not knowing the result of such troubles, I allowed it to run on for some time, but finally applied to the best physician in this city, who treated me for six months. In that time I took over 600 pills of protolodide of mercury, ‡ grain each, and had run down in weight from 210 to 157 pounds, and was confined to my bed with Mercurial Rheumatism, scarcely able to turn myself in bed. Being a traveling man, some of the fraternity found me in this deplorable condition, and recommended me to try your specific

severa its use. I commenced the use of it with very little faith, and in less than three weeks was able to take my place on the road. The sores and copper-colored spots gradually disappeared, and te-day I have not a sore or spot on my person, and my weight is 217 pounds, being more than it ever was. I do not wish you to publish my name, but you may show this letter to any who doubt the merit of S. S. S., for I know it is a sure cure. Yours truly, J. H. B,

Some thirty years ago there lived in Montgomery, Ala., a young man who was terribly afflicted. After being treated for a long time by the medical profession of this town with no benefit, he commenced taking S. S. with no benefit, he commenced taking S. S.
S. After persistently taking it two months
he was cured. Being acquainted with him
for twenty years thereafter, I can to tify
that the disease never made its return.
